

AQUAPLATE® STEEL

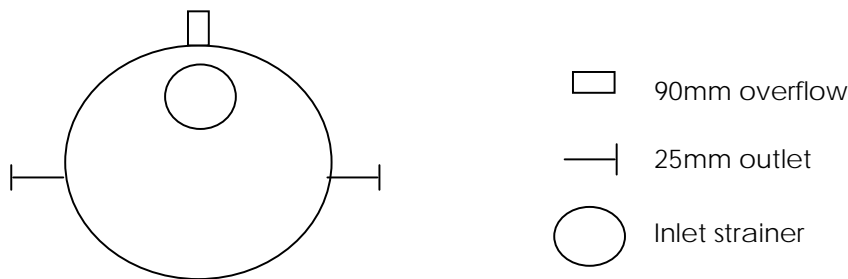

AQUAPLATE® steel has a food grade quality polymer skin bonded to its inner surface which helps ensure water tastes clean and fresh. The external surface is unpainted galvanised steel. Aquaplate® steel is covered by a 20 year warranty (warranty terms and conditions apply).

AQUAPLATE® STEEL PAINTED

AQUAPLATE® steel, as explained above, with the external surface post painted to match the COLORBOND® steel range of colours in a high gloss finish.

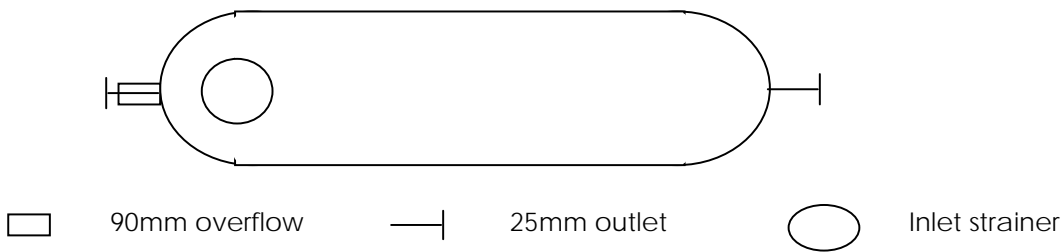

ROUND STEEL TANKS

All round steel tanks will be configured with an inlet strainer and 90mm overflow at 12 o'clock and two 25mm base outlets at 3 o'clock & 9 o'clock.

SLIMLINE STEEL TANKS

All Slimline steel tanks will be configured with an inlet strainer and 90mm overflow at 9 o'clock and 25mm base outlets at 3 o'clock and 9 o'clock.

CUSTOMISATION

Note that customisation of fittings will be available at a cost of \$85 each plus fittings cost. Note that extra taps are charged at \$95.00 each. Customers who decide to proceed with any form of customisation will be required to pay a 50% deposit before we will proceed with manufacture.

COLOUR RANGE

Tanks can be painted in a high-gloss enamel and are available to match the 20 standard COLORBOND® colours, unless specified. Alternatively, a Galvanised finish is available
