

MODEL
HM7/B: Timer Box

The HM7/B is fitted with a 3HR timer which can be turned anywhere from 0 to 3 hours.

Once the timer has returned to zero the heater will switch off.

The HM7/B is fitted with a thermostat which will cut power to the heating unit (when timer is operating) once the preset temperature is reached (approx. 25 degrees) and will cut back in once the room temperature has dropped.
